

## NOTES FROM THORNHAM

Last month I showed six photos of staff at Thornham Hall taken in the 1860s by a local pioneering photographer, Cleer Alger of Diss. Here are the other photos in the series, perhaps these show a mix of staff and family.

To help plan this busy time of year I'm listing some events for the next two months. Please particularly note our exclusive screening of *Coast to Coast* which will be introduced by the director Sandy Johnson and the annual children's film at which accompanied and unaccompanied adults are most welcome.
